About Us

We believe:

- furniture should be a catalyst for human connection, gathering, sharing and authentic living.
- celebrate bold individuality, rich texture and adaptable design.
- deeply inviting, pet and kids friendly for modern families.

We respond to real living spaces, not only visually striking, but built to function with perform real family with family friendly materials.

Introducing the Colorful Sofa: The Next Evolution of Lounging

The original modular sofas of the 1970s captured a spirit of freedom.

Low, relaxed, and effortlessly social.

But the way we live has changed.

Today's homes demand more.
More flexibility. More durability. More personality.

Our collection is a deliberate departure from the sea of neutral, predictable seating.

We reimagined with internal framing and wood bases to ensure each module stays securely in place and retains its shape.

We pair this structure with high-performance fabrics that are:

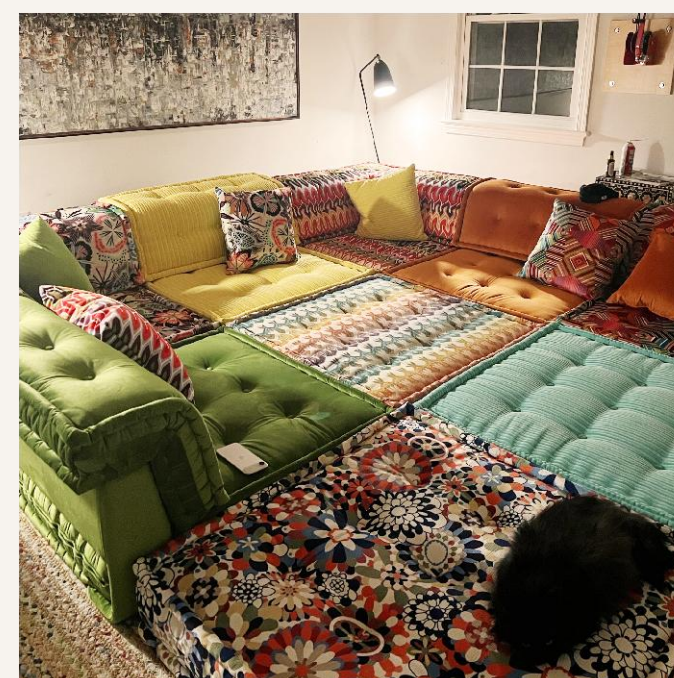

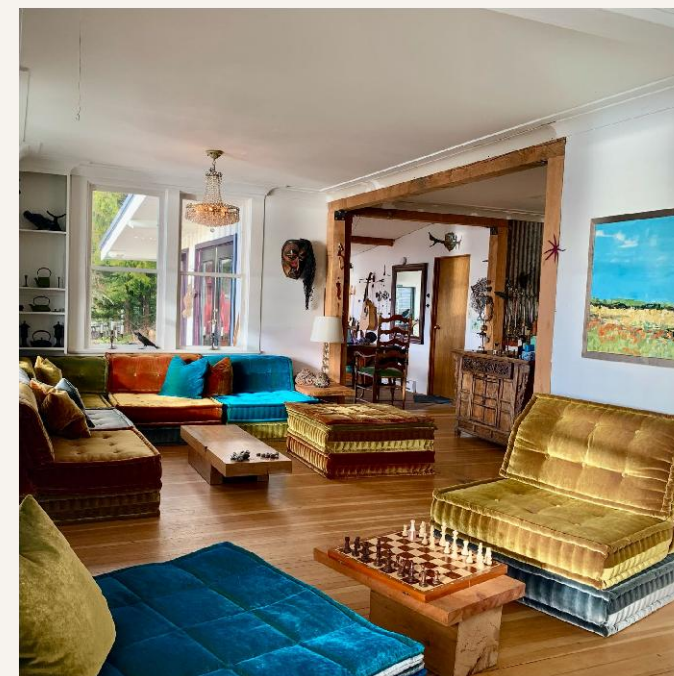

- Kid-friendly
- Pet-friendly
- Spill-resistant

So you can enjoy a deeply personal, bespoke aesthetic without compromising everyday durability.

We look forward to creating something exceptional with you.

With warmth,

Adorn Croft™ Team

Indoor

collection

Indoor

collection

The true beauty of these sofas lies in the execution of the traditional French upholstery and flawless piping.

Indoor

collection

Outdoor

collection

The three basic elements of the Mah Jong can be stacked, placed side by side or grouped together as required.

The combination of seat cushions, straight backrests and corner modules allows you to adjust heights and create your ideal layout - whether a corner sofa, a straight sofa, a lounge chair or a daybed.

Outdoor

collection

Construction of outdoor modules are completely different from indoor modules

- Water Repellent Fabric: Cause water to bead up and slide right off.
- Quick Drain Mesh Bottoms: Promote maximum airflow and rapid water drainage.
- Mildew Resistant Cushions: High performance Dacron foam and quick drying wraps ensure mold free comfort.
- Stainless Steel Inner Structures: Traditional wood structure inside is replaced with rust proof stainless steel.

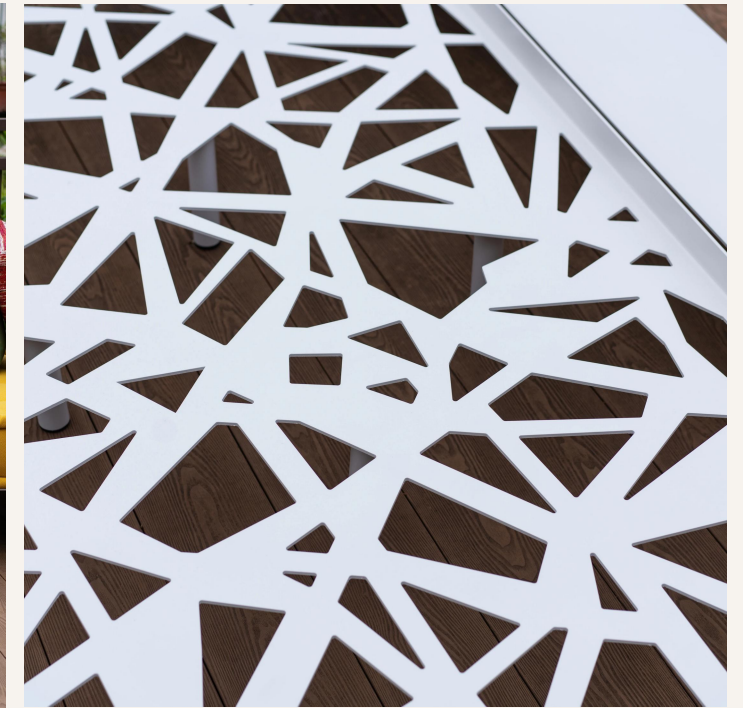

Outdoor

collection

Fully Custom Outdoor Bases

- Exceptional Materials: We use sustainably sourced premium Myanmar teak wood, sleek stainless steel, or lightweight aluminum.
- Weather Defying Finishes: Treated with advanced anti-corrosion coatings to withstand harsh elements.
- Built to Last: Engineered to be highly durable, moisture-resistant, and inherently antiseptic to prevent rot and decay over time.
